Title: Regex Memory Game

Project Tracker: <https://trello.com/b/5Yo9Y22B/regex-memory-game>

Video Link: <https://youtu.be/7uRcst7m3zQ>

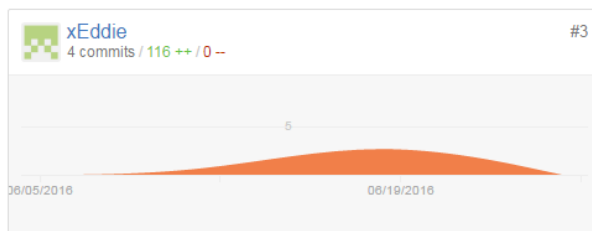

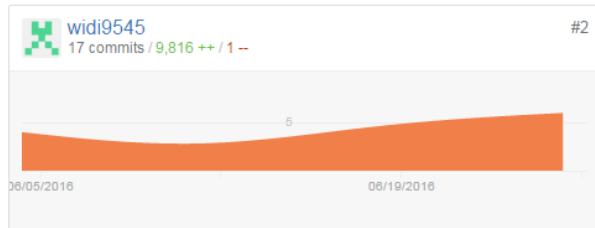

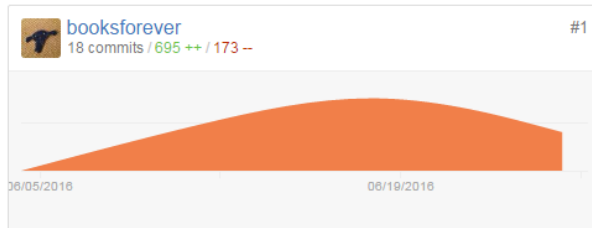

VCS: <https://github.com/widi9545/csci3308regexgame>

Commits:

Jun 5, 2016 – Jun 27, 2016

Contributions to master, excluding merge commits

Contributions: **Commits** ▾

Deployment: In MySQL, create a database titled regexQuestions, use the regexQuestions database, and then source databaseSetup2.sql

To run the game, type into the terminal: `python regexMemoryGame.py`
