Title: Regex Memory game

Project Tracker: https://trello.com/b/5Yo9Y22B/regex-memory-game

Video Link:

VCS: https://github.com/widi9545/csci3308regexgame

Commits:

Jun 5, 2016 – Jun 26, 2016

Contributions: **Commits** ▾

Contributions to master, excluding merge commits

Deployment: In MySQL, create a database titled regexQuestions, use the regexQuestions database, and then source databaseSetup2.sql

To run the game, type into terminal the following phrase: python RegexMemoryGame.py
